Docket No. 98N-1265
MAR 24 P1:52
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I live in a relatively small
area where there are few choices of
pharmacies and none are as trustworthy
as Women's Health who fills my prescription
monthly carefully and correctly.

There should be no limits on the amount
of prescriptions that may be shipped interstate. Who
decides what is "inordinate" and then will you
administer a lottery for some of us while the others
go without their prescriptions or have to pay more
(to large corporations only interested in sales) for
possibly lower quality service and medication?
